

Declaration for Integral Ecology

*We, the Superior General of the Congregation
of the Servants of the Holy Heart of Mary,
the members of her Council,
and the members of the Plenary Council,
take a stand for integral ecology.*

*Consequently, each superior of an apostolic region
commits herself and her sisters to identifying ways
to care for our relationship with God, with each other,
with our brothers and sisters, and with creation.*

*Each sister is encouraged to be involved,
by concrete actions, in the care of our planet
and in the respect of the life and dignity of every person.*

*As a religious Congregation
we stand in solidarity for a simple lifestyle
that reflects our commitment to integral ecology
and our option for the poor.*

*Kathleen Mulchay, S.S.C.M.
Superior General
and the members of her Council
and the Plenary Council*
